

Vocabulary Log Assignment

In order to strengthen your vocabulary, you will be completing a vocabulary log for each quarter. Students have found this to be an effective way of learning new words, as the interaction with the words while compiling the log aide in the remembrance of them.

Each log must be typed and must contain 25 words that you did not previously know. For each word, you must include the following:

- a) the **exact context** (quote) in which you heard or saw the word
 - b) all **forms** of the word, with the parts of speech labeled
 - c) all **definitions** of the word
 - d) an **original sentence**
 - e) a **mnemonic device** to help you remember the word and its definition
-

Please number and label all words and required information. I hope you choose fun words that you are interested in knowing; and more importantly, I hope that you will continue to use these words in your speech and writing. *Each log will be due as a hard copy to me and an electronic copy to turnitin.com (and will be due approximately 1-1 ½ weeks prior to the end of the quarter.)*
